- Metrics Tracker ..... page 27**

# Phase 0 — Setup (Complete Before Day 1)

---

Before you create a single piece of content, your account must be properly configured. A poorly set-up account wastes every view you earn. Do this first. Estimated time: **30 minutes**.

## 1. Create Your TikTok Business Account

- Download TikTok app if not installed
- Sign up with email (not phone — easier recovery)
- Username: **@ScholarXafrica** (or closest available variant)
- Switch to **Business Account** in Settings > Account
- Choose category: **Education** or **Entrepreneur**
- Profile photo: Use your ScholarXafrica logo (clear, recognizable at small size)
- Bio (80 chars max): **31+ projects delivered | Research, Dissertations, Coding | DM 'READY' to start ■■**
- Add website link in bio

## 2. Warm Up Your Account

TikTok's algorithm needs to understand who you are before it knows who to show you to.

- Search and follow **20 Zimbabwean student/education creators**
- Watch 3-5 full videos from each — let them play to the end
- Like and leave genuine comments on 10 posts (no emoji-only comments)
- Scroll your For You Page for 15 minutes — TikTok learns from what you watch
- Save 5 videos to your Favorites (signals interest to algorithm)

## 3. Content Library — Save These Sounds

- Open TikTok > Search > type 'trending Zimbabwe' — save 5 sounds
- Search 'academic tok' — save 5 sounds popular in education niche
- Search 'student life' — save 3 sounds for relatable content

# Phase 1 — Days 1 to 6: The Foundation

---

The first 6 days are about **volume and momentum**, not perfection. Your goal is to publish 12+ videos, learn what resonates with your audience, and build a daily posting habit. Most people quit before Day 7. You won't.

## DAY 1 — Account Launch & First 3 Posts

---

### Morning Block (60 min)

- Complete Phase 0 setup checklist above (30 min)
- Set up CapCut app on your phone — this is your editing tool (5 min)
- Film Post #1: **Introduction Video** (15 min)
- Face camera, good lighting (stand facing a window). Script: *'I've helped 31+ students with their projects. Research papers, dissertations, Arduino, coding — I do it all. If you're stressed about your submission deadline, follow me. I drop tips every day.'* Keep it under 20 seconds. Don't overthink — raw is better than polished.

### Afternoon Block (45 min)

- Film Post #2: **Project Showcase** — Screen record scrolling through a finished project (dissertation or code). Add text overlay: *'What a 1st-class submission looks like'*. Use a trending sound as background.
- Film Post #3: **Pain Point Relatable** — Face camera. Say: *'POV: Your supervisor promised feedback 3 weeks ago and your deadline is in 4 days.'* Use a funny/trending Zim sound.
- Post all 3 videos to TikTok — space them out by 2-3 hours. Use hashtags on each: **#UniLifeZw #ZimbabweStudents #AcademicTok #StudentHacks #DissertationHelp**

### Evening Block (20 min)

- Reply to every comment on your 3 posts (even if just 'thank you!')
- Spend 15 min engaging on other student creators' content — comment something genuine, not spam
- Write down in Notes app: what topic you want to post tomorrow

**Day 1 Success Metric:** 3 videos posted. That's it. Views don't matter yet.

## DAY 2 — Content Engine Starts

---

Today you learn the 5 content types and start rotating through them. You'll post 2 videos today.

### Morning: Post #4

**Type: Educational Micro-Tip** — Face camera or text-on-screen. Pick ONE of these scripts:

- Script A: *'Stop starting your essays with In conclusion comma... Actually let me show you 3 better ways to end your essay.'* Then list on screen.
- Script B: *'Want free access to academic journals? Go to sci-hub.se — type in the DOI of any paper — boom, free access. You're welcome.'*
- Script C: *'3 words that make your essay sound unprofessional: 1) Basically 2) Stuff 3) Things. Replace them with: Fundamentally, Material, Elements.'*

### Afternoon: Post #5

**Type: Student Relatable / Humor** — These spread fastest. Ideas:

- Film yourself reacting dramatically. Text: *'When you submit your dissertation and Turnitin says 0% similarity... this is the greatest day of my life.'*
- Use CapCut green screen effect. Put a confused lecturer photo behind you: *'My bibliography page be like: REFERENCES. 1. Wikipedia... 2. My uncle who did this in 1987.'*
- Simple face to camera: *'The face I make when someone says they wrote their 10,000-word dissertation in 3 days... respect, but also please get help next time.'*

### Evening

- Reply to all comments within 1 hour of posting (algorithm loves this)
- Watch your Day 1 videos — check views. Which topic got more? Note this.
- Find 3 accounts similar to yours. Follow them. Comment on their latest post.

## DAY 3 — Community Building

---

Today you shift from just posting to actively building an audience. Engagement is your growth engine.

### Morning: Post #6

**Type: Project Showcase** — Show a real deliverable. Screen record a finished project. Add a text overlay that tells a story: *'Client came to me with a 45% average. This dissertation got a distinction. 2 weeks of work. Worth every minute.'* End with: Comment 'DONE' if you want results like this.

### Afternoon: Post #7

**Type: Behind the Scenes** — Show your setup. Ideas:

- Timelapse of you coding/building an Arduino project (speed up in CapCut, add lo-fi beat)
- Your desk at 11pm with coffee, laptop, notes scattered. Text: *'This is what finishing 31 projects looks like.'*
- Screen recording of SPSS output with dramatic music. Text: *'When the p-value is less than 0.05... chef's kiss.'*

### Engagement Sprint (30 min today)

- Reply to EVERY comment on YOUR posts with a video reply (not text) — TikTok pushes video replies to top of feed
- Find 5 videos under #UniLifeZw — leave insightful comments (add value, not 'nice')
- Find 5 videos under #DissertationHelp — do the same
- DM 3 student creators thanking them for their content (genuine, no pitch)

## DAY 4 — Experimentation Day

---

Today you test 3 different formats to see what YOUR audience prefers. Post 2 videos — but make them different from what you've done before.

### Post #8: Stitch / Duet

Find a popular video of a student talking about exam stress or dissertation panic. Stitch it — play their clip, then cut to you saying: *'I've been there. Here's the one thing that saved me...'* and give a quick tip. Stitches tap into existing audiences.

### Post #9: Text-on-Screen Carousel Style

No face. Just rapid text on screen with a trending sound. Template:

- Slide 1: '5 things I wish I knew before writing my dissertation'
- Slide 2: '1. Your supervisor is not your editor. They give direction, not corrections.'
- Slide 3: '2. The first draft is supposed to be bad. Write drunk, edit sober (metaphorically).'
- Slide 4: '3. Reference managers (Zotero, Mendeley) save you DAYS of manual work.'
- Slide 5: '4. Nobody reads your full dissertation except you and your marker. Make those chapters count.'
- Slide 6: '5. Asking for help is not cheating. It's strategy. DM me if you need it.'

### Experiment Tracking

Open your Notes app. Create a table. After 24 hours, record:

- Post #1 format: \_\_\_\_\_ | Views: \_\_\_\_\_ | Comments: \_\_\_\_\_
- Post #2 format: \_\_\_\_\_ | Views: \_\_\_\_\_ | Comments: \_\_\_\_\_
- Post #3 format: \_\_\_\_\_ | Views: \_\_\_\_\_ | Comments: \_\_\_\_\_
- Post #4 format: \_\_\_\_\_ | Views: \_\_\_\_\_ | Comments: \_\_\_\_\_
- Post #5 format: \_\_\_\_\_ | Views: \_\_\_\_\_ | Comments: \_\_\_\_\_
- Post #6 format: \_\_\_\_\_ | Views: \_\_\_\_\_ | Comments: \_\_\_\_\_
- Post #7 format: \_\_\_\_\_ | Views: \_\_\_\_\_ | Comments: \_\_\_\_\_
- Post #8 format: \_\_\_\_\_ | Views: \_\_\_\_\_ | Comments: \_\_\_\_\_
- Post #9 format: \_\_\_\_\_ | Views: \_\_\_\_\_ | Comments: \_\_\_\_\_

## DAY 5 — Analytics & Double Down

---

Today you become data-driven. No more guessing — you'll know exactly what works.

### Morning: Analytics Review (20 min)

- Open TikTok > Profile > Creator Tools > Analytics
- Go to Content tab. Sort your 9 videos by views. Write down your Top 3.
- For each Top 3 video, note: What topic? What format? What was the hook? What sound?
- Also note your Bottom 3 — what didn't work. No shame; this is data.
- Look at Follower tab: What time are your followers most active? Post at those times going forward.
- Check: Which video got the most comments? Comments > likes for the algorithm.

### Post #10: Double Down on Your Winner

Take your best-performing video. Make a PART 2. Same format, same style, new content. If your education tip did well, post another tip. If student humor won, post another relatable. If project showcase got views, show a different project.

### Post #11: CTA Post (Soft Sell)

Face camera. Be warm. Say: *'I've been posting tips all week. A lot of you have been asking if I can help with your projects. Yes, I can. I've done 31+ projects — dissertations, research, coding, Arduino. DM me the word PROJECT and I'll send you my pricing. No pressure.'* This is the first direct offer. By Day 5, your audience trusts you enough to hear it.

**Day 5 Success Metric:** You've identified your winning content type AND made your first soft offer.

## DAY 6 — Batch Creation & Systems

---

Today is about building a system so you never miss a posting day. Most creators quit because they run out of ideas. You won't.

### Morning: Batch Film 6 Videos (90 min)

Put on the same outfit. Film 6 videos back-to-back in one session. Change nothing about your appearance — this lets you post across multiple days without looking different. Use your proven format from Day 5.

- Video 1: Educational tip (your winner format)
- Video 2: Student relatable / humor
- Video 3: Project showcase / client result
- Video 4: Behind the scenes (your process, tools, workspace)
- Video 5: Stitch a trending student video
- Video 6: Soft CTA — offer help, ask for DMs

### Afternoon: Edit & Schedule (45 min)

- Open CapCut. Edit all 6 videos — add captions (essential! 80% watch without sound), text overlays, trending sounds
- Schedule posts in TikTok: Post 1 for today, the rest for Days 7-12 (2 per day)
- Pro tip: TikTok scheduling is in the upload flow — toggle 'Schedule' before posting

### Content Bank System (15 min)

- Create a Notes app folder called 'TikTok Ideas'
- Write down 20+ future video ideas (you'll thank yourself on Day 20)
- Save 10 trending sounds to your TikTok Favorites for future use
- Create a 'Winning Hooks' note: copy the first line of your best-performing videos so you can reuse the pattern

### Post #12: Celebrate Week 1

Face camera. Be genuine. Say: *'One week of posting every single day. 12 videos. Here's what happened...'* Share your stats (views, followers gained, DMs received). People love a journey. This builds connection and trust.

**Day 6 Success Metric:** You have 6+ videos banked for next week, a content ideas list, and you've built a repeatable system. From here, consistency becomes automatic.

## Phase 2 — Days 7 to 14: Growth Sprint

---

Week 2 is about **acceleration**. Your account is warmed up, the algorithm knows your niche, and you have a batch of content ready. Now you scale.

### Weekly Targets — Days 7-14

- Post 2 videos daily (14 videos this week) — use your batch from Day 6 plus fresh content
- Reply to every comment with a video reply — this is your fastest growth lever
- Stitch 3 trending videos from other Zimbabwean student creators
- Reach out to 2 small creators for collaboration
- Post 1 video that directly asks for DMs/project inquiries
- Try 1 LIVE session — even 10 minutes. TikTok pushes live notifications hard.

### The Hashtag Strategy

Every post uses exactly **5 hashtags**. Mix these combinations:

**Core Set (use on every post):** #UniLifeZw #ZimbabweStudents #AcademicTok

**Rotate these 2 per post:** #DissertationHelp #StudentHacks #ZimTok #ResearchTips  
#StudyWithMe #CodingStudent

### The DM Conversion Funnel

When someone DMs you, follow this exact sequence:

- **Step 1 (Immediate):** Thank them for reaching out. Ask: 'What project do you need help with?'
- **Step 2:** Listen to their problem. Ask about deadline, subject, word count.
- **Step 3:** Tell them you can help. Give a price range. Be confident.
- **Step 4:** Ask for the sale: 'Should I send you the project brief form to get started?'
- **Step 5:** Close. Get their email. Send the form. Follow up within 2 hours.

## Phase 3 — Days 15 to 30: Scaling

---

- Day 15-30: Post 2x daily — maintain your batch system. Film Sundays, schedule for the week.
- Day 15-30: Analyze Week 2 data. What content type won? Post 60% of THAT type.
- Day 15-30: Create a 'Free Resource' for lead capture: Dissertation Checklist PDF or APA 7 Cheat Sheet.
- Day 15-30: Post: 'Comment CHECKLIST and I'll DM you my free dissertation checklist.' — This drives DMs.
- Day 15-30: Go LIVE twice this week. Topic ideas: Q&A; about academic writing, SPSS demo, project walkthrough.
- Day 15-30: Start a TikTok Series: 'Dissertation in 60 Seconds' — daily micro-tips as a branded series.
- Day 15-30: Engage on 15+ videos daily in #UniLifeZw and #ZimbabweStudents.
- Day 15-30: Track your DMs: How many this week? How many converted to clients? Conversion rate?
- Day 15-30: End of Phase 3 target: 500+ followers, 10+ client DMs per week.

## The Content Flywheel

By Day 30, your content machine should look like this:

- **Sunday:** Batch film 8-10 videos (90 min)
- **Monday-Friday:** Post 2x daily from your batch + 1 spontaneous/trending post
- **Saturday:** Analytics review. Double down on winners. Kill what didn't work.
- **Daily:** 20 min engagement (replies, comments on others, DMs)

## Phase 4 — Days 31 to 45: Authority Building

---

You're no longer just a creator — you're becoming **the go-to academic expert on Zimbabwean TikTok**. This phase is about deepening trust and authority.

- Day 31-45: Launch a signature series: 'The Scholarship Series' or 'Research Made Simple' — branded, recognizable content.
- Day 31-45: Share client testimonials as video content (screenshot WhatsApp messages, read them on screen).
- Day 31-45: Post your personal story: Why did you start ScholarXafrica? What's your background? People buy from people.
- Day 31-45: Collaborate with 3 other Zimbabwean education creators — duets, stitches, or joint lives.
- Day 31-45: Create 'vs' content: 'ChatGPT vs Human Research — Can AI Do Your Dissertation?' (spoiler: no).
- Day 31-45: Post results: 'Client went from a fail to a 2.1 in 3 weeks. Here's exactly what we did.'
- Day 31-45: Increase LIVE sessions to 3x weekly. Run Q&As.; Invite a student guest.
- Day 31-45: Target end of Phase 4: 1,500+ followers, consistent weekly client inquiries.

## Phase 5 — Days 46 to 60: Monetization & Automation

---

By now, TikTok is a **predictable client acquisition channel**. This phase turns it into a machine.

- Day 46-60: Launch a paid offer: 'Done-For-You Dissertation Package' — promote it via a pinned TikTok video.
- Day 46-60: Create a TikTok-exclusive discount code (e.g., TIKTOK10) — track exactly how many clients come from the platform.
- Day 46-60: Hire a campus ambassador from each major university (UZ, NUST, MSU) — pay them 15% commission per referral.
- Day 46-60: Set up WhatsApp Business auto-replies: when someone DMS, they get an instant price list + project form link.
- Day 46-60: Build an email list: offer a free resource ('APA 7 Template Pack') in exchange for email. Send weekly tips.
- Day 46-60: Analyze your top 20 videos. Create a 'greatest hits' playlist pinned to your profile.
- Day 46-60: Post a 'Year in Review' or '60 Days on TikTok' video — celebrate the journey, share stats, inspire others.
- Day 46-60: Target end of Day 60: 3,000+ followers, 5-10 clients/month from TikTok alone.

# Tools & Resources

---

| Tool                | Purpose                                     | Cost |
|---------------------|---------------------------------------------|------|
| CapCut              | Video editing, captions, effects            | Free |
| Canva               | Thumbnails, text overlays, templates        | Free |
| TikTok App          | Filming, posting, analytics                 | Free |
| Notes App           | Content ideas, tracking metrics             | Free |
| WhatsApp Business   | Auto-replies, catalog, quick DMs            | Free |
| Linktree / Bio.link | All your links in one bio link              | Free |
| Google Drive        | Store project screenshots, PDFs for content | Free |
| Remove.bg           | Remove backgrounds from images              | Free |

## The 5 Content Types (Reference Card)

|                                            |                                                                                       |
|--------------------------------------------|---------------------------------------------------------------------------------------|
| <b>A — Student Relatable / Humor (30%)</b> | Memes, pain points, 'POV', trending sounds. Fastest growth. Lowest production effort. |
| <b>B — Educational Micro-Tips (25%)</b>    | Quick academic hacks, citation tips, research shortcuts. Builds authority.            |
| <b>C — Project Showcases (20%)</b>         | Before/after, client results, screen recordings. Drives DMs and conversions.          |
| <b>D — Behind the Scenes (15%)</b>         | Your workspace, process, tools, late-night hustle. Builds connection and trust.       |
| <b>E — Direct CTA (10%)</b>                | Soft sell: 'DM me PROJECT', 'Link in bio'. Don't overdo — 1 in 10 posts max.          |

# Weekly Metrics Tracker

Print this page. Fill it in every Saturday. Data is the difference between guessing and growing.

| Week                | Videos Posted | Total Views | New Followers | DMs Received | Clients Converted | Top Video Topic |
|---------------------|---------------|-------------|---------------|--------------|-------------------|-----------------|
| Week 1 (Days 1-6)   | 12+           |             |               |              |                   |                 |
| Week 2 (Days 7-14)  | 14            |             |               |              |                   |                 |
| Week 3 (Days 15-21) | 14            |             |               |              |                   |                 |
| Week 4 (Days 22-28) | 14            |             |               |              |                   |                 |
| Week 5 (Days 29-35) | 14            |             |               |              |                   |                 |
| Week 6 (Days 36-42) | 14            |             |               |              |                   |                 |
| Week 7 (Days 43-49) | 14            |             |               |              |                   |                 |
| Week 8 (Days 50-56) | 14            |             |               |              |                   |                 |
| Final (Days 57-60)  | 8             |             |               |              |                   |                 |
| TOTALS              | 104+          |             |               |              |                   |                 |

## 60-Day Targets

| Metric        | Day 6  | Day 14  | Day 30  | Day 45  | Day 60  |
|---------------|--------|---------|---------|---------|---------|
| Total Videos  | 12     | 26      | 54      | 82      | 104+    |
| Followers     | 100    | 300     | 500     | 1,500   | 3,000+  |
| DMs/Week      | 5      | 10      | 15      | 20      | 25+     |
| Clients/Month | 2      | 3-5     | 5-8     | 8-10    | 10+     |
| Post Streak   | 6 days | 14 days | 30 days | 45 days | 60 days |

## The 3 Unbreakable Rules

- **Rule 1: Hook in the first 1 second.** If they scroll past, nothing else matters. Start with movement, a bold text overlay, or a pattern interrupt.

- **Rule 2: Never sound like an ad.** You're the smart friend who happens to offer a service. Value first, offer second. Always.
- **Rule 3: Post daily. No exceptions.** Consistency IS the algorithm. One missed day breaks momentum. Batch-create to never miss.

---

*This plan was built for ScholarXafrica. Execute it fully. Document your journey. In 60 days, you won't recognize your business.*
